m Solving Implementation Work Plan	Person assigne
1 Meet with new Community Safety Commissioner (Todd Barnette) to discuss our problems - Irene from	Thor
Council Member Osman's office will set up a meeting.	11101
Talking points include:	
Our list of problems and strategies	
Our desire to develop partnerships and relationships	
Our approach of not just trying to move problems but trying to solve them	
2) Contact legal firm to discuss possible law suit.	Ray/Th
 Encampments - failure to have a uniform city policy that is not arbitrary and capricious and that results in a concentration of encampments in low income and minority neighborhoods 	
 Inconsistent enforcement of ordinances resulting in lack of enforcement in low-income and minority neighborhoods. The City enforces most ordinances only when there is a complaint. This requires a call to 911 or 311. The 6th Ward has a history of low volume of calls to 911 and 311. This is likely 	
because low-income and minority residents do not trust the City and are afraid to involve the police or other City departments or do not know how the system works.	
 Franklin Light Rail Station and D bus line - failure to keep these stations in a safe and clean condition that is similar to stations in other neighborhoods. 	
• Failure of Mpls. City Council to act in good faith to bring the number of police up to full force as required by the court decision. Note actions of the council to fail to offer competitive salaries or	
retention bonuses resulting in recruitment failure and police leaving.	
 Failure of companies to provide services to our neighborhood similar to bank redlining. 	
Lack of access to public restrooms	
Develop talking points for press	Tho
3) Discourage trespassing, criminal activity outside of encampments, criminal activity around Chicago &	
Franklin, loitering, and public urination	
 Identify and order non-toxic chemical & biological agents that can be used to discourage the above 	Ray

Chicago & Franklin) Parking restrictions on Franklin between Elliot and Chicago Try to get zoning regulations regarding fencing changed Explore other traffic changes to reduce activity on Elliot Avenue Identify changes that landlords can make to improve security within their buildings Alion Research and identify city ordinances and state laws that are not being enforced in Ventura Village Graffiti Boarded windows Litter Loitering with intent to commit criminal activity Health regulations relating to public defecation Exposing oneself in public Housing and zoning regulations relating to outdoor camping Trash pick-up Identify what the threshold number of 911 calls actually is before city or state action is triggered Access to and/or provision of public restrooms in commercial buildings Source Address issues leading to blight especially on Franklin Avenue Identify and order products that make graffiti easier to remove Identify ways to remove trash and litter (e.g. work with block clubs) Continue to document and report problems on Franklin Avenue Engage with inspections department to get data on enforcement especially how much of their work is complaint driven verses field work initiated by inspectors	Contact U of M to see if design changes can be made to discourage above activities (especially at	Mary
